

AI Sales & Offers Starter

Sales without hype. Clear offers, proof, scripts, and follow-up.

24 PROMPTS

MOBILE

How to use

- 1) Open the prompt library on your phone.
 - 2) Fill the Snapshot once → prompts auto-personalize.
 - 3) Tap Copy (Template or Personalized) and paste into any AI.
- Tip: PDF is for learning. Copy happens on the website.

Open library:

<https://leonelulloa.com/prompts/en/ai-sales-offers-snapshot>

Scan

Snapshot (fill once)

These fields personalize every prompt.

- Offer
- Price range
- Target customer
- Markets
- Differentiator
- Sales channel
- Capacity
- Constraints

Tip: Use Template copy if you want to edit {{variables}} manually.

Start here:

<https://leonelulloa.com/p/01>

Offer clarity audit (what you REALLY sell)

What AI can do

Turn a vague offer into a clear promise + deliverables + boundaries.

Mini example

You get: 1-sentence offer + Included/Not included + Ideal vs Not fit.

Do this

Do this first. Clear offer = easier marketing + easier sales.

PROMPT PREVIEW

Rewrite my offer using {{offer}}, {{target_customer}}, {{markets}}. Output a 1-sentence promise + Included/Not included + how it works in 3 steps.

Copy on web:

leonelulloa.com/p/01

Scan

Package & tiers (Basic / Pro / VIP)

What AI can do

Create 3 tiers that fit your capacity and increase conversion.

Mini example

You get: 3 tiers + who each is for + upgrade path.

Do this

Avoid custom quotes at the start—use tiers.

PROMPT PREVIEW

Design Basic/Pro/VIP for {{offer}}. Include deliverables, timeline, pricing display, and a 'Which plan is for you?' chooser.

Copy on web:

leonelulloa.com/p/02

Scan

Pricing logic (beginner-safe)

What AI can do

Set pricing based on value + market reality + capacity (no guessing).

Mini example

You get: 3 price points + payment options + raise-prices rule.

Do this

Pick one price you can defend with proof + process.

PROMPT PREVIEW

Recommend pricing for {{offer}} in {{markets}}. Provide low/standard/premium and what's included + 2 payment options.

Copy on web:

leonelulloa.com/p/03

Scan

Guarantee + risk reducers (country-aware)

What AI can do

Increase trust with realistic guarantees and risk reducers.

Mini example

You get: 3 guarantee options + 5 trust lines.

Do this

Pick a guarantee you can honor every time.

PROMPT PREVIEW

Propose guarantees for {{offer}} in {{markets}} respecting {{constraints}}. Write a short policy section + warnings.

Copy on web:

leonelulloa.com/p/04

Scan

Positioning vs competitors (simple)

What AI can do

Clarify what you should be known for—without attacking others.

Mini example

You get: positioning statement + 3 comparisons + proof ideas.

Do this

Use this to stop competing on price.

PROMPT PREVIEW

Create a positioning statement for {{offer}} to {{target_customer}} in {{markets}} using {{differentiator}} + proof assets list.

Copy on web:

leonelulloa.com/p/05

Scan

Proof plan (what proof to collect first)

What AI can do

Build trust faster with the right proof assets and a 2-week plan.

Mini example

You get: 10 proof assets + how to collect and use them.

Do this

Proof beats persuasion. Build proof weekly.

PROMPT PREVIEW

List proof assets for {{offer}} (reviews, screenshots, demos).
Create a 2-week 'proof sprint' with daily tasks.

Copy on web:

leonelulloa.com/p/06

Scan

Discovery questions script (DM or call)

What AI can do

Qualify leads with a short, natural discovery script.

Mini example

You get: 6–8 questions + branching + next-step CTA.

Do this

Use 6–8 questions max. Don't interrogate.

PROMPT PREVIEW

Write a 6–8 question script for {{sales_channel}}. Include qualification signals + next step (book/proposal/checkout).

Copy on web:

leonelulloa.com/p/07

Scan

Qualification filter (who NOT to sell to)

What AI can do

Avoid bad clients with a simple filter + polite declines.

Mini example

You get: red flags + decline scripts + redirect options.

Do this

Saying no protects your brand and capacity.

PROMPT PREVIEW

Define ideal buyer + 8 red flags for {{offer}}. Write polite decline messages + 2 redirect options.

Copy on web:

leonelulloa.com/p/08

Scan

DM / WhatsApp opener (non-pushy)

What AI can do

Start conversations without sounding spammy.

Mini example

You get: 10 openers + 3 follow-ups + bridges to CTA.

Do this

Ask a question. Don't pitch in message #1.

PROMPT PREVIEW

Write 10 openers for {{target_customer}} in {{markets}} and 3 follow-ups. Add 'do not say' phrases.

Copy on web:

leonelulloa.com/p/09

Scan

Objection handler (price / trust / timing / logistics)

What AI can do

Answer objections calmly and ethically, with proof and clear next steps.

Mini example

You get: short + long replies + best CTA per objection.

Do this

Objection → proof → next step.

PROMPT PREVIEW

Write chat + consultative replies for: too expensive / think about it / trust / logistics. Include CTAs.

Copy on web:

leonelulloa.com/p/10

Scan

Follow-up sequence (7 touches, not annoying)

What AI can do

Follow up with structure that keeps trust and increases replies.

Mini example

You get: 7 messages + timing + goal + CTA for each.

Do this

Most sales happen after follow-up #2–#5.

PROMPT PREVIEW

Create 7 follow-up messages for {{sales_channel}}. Include proof + risk reducer + close-the-loop.

Copy on web:

leonelulloa.com/p/11

Scan

Closing script (3 styles)

What AI can do

Close naturally with soft, direct, and consultative scripts.

Mini example

You get: chat + longer versions + CTA for each style.

Do this

Always end with a clear next step.

PROMPT PREVIEW

Write 3 closing styles for {{offer}} in {{markets}} with chat and longer versions + CTAs.

Copy on web:

leonelulloa.com/p/12

Scan

1-page proposal generator (fast)

What AI can do

Create a clean 1-page proposal that reduces back-and-forth.

Mini example

You get: scope, timeline, price, next steps, mini policy.

Do this

Use 1 page. Clarity closes deals.

PROMPT PREVIEW

Generate a 1-page proposal for {{offer}} (summary, deliverables, timeline, price, terms, CTA).

Copy on web:

leonelulloa.com/p/13

Scan

Negotiation guardrails (don't discount wrong)

What AI can do

Protect margin with alternatives to discounting.

Mini example

You get: 6 alternatives + scripts + discount policy.

Do this

Discount last. Reduce scope first.

PROMPT PREVIEW

Create 6 alternatives to discounting for {{offer}} + scripts + a simple discount policy.

Copy on web:

leonelulloa.com/p/14

Scan

Upsell / cross-sell (ethical)

What AI can do

Increase revenue with upsells that truly help the customer.

Mini example

You get: 3 upsells + 3 cross-sells + timing + scripts.

Do this

Upsell after value is perceived or delivered.

PROMPT PREVIEW

Propose 3 upsells and 3 cross-sells for {{offer}} + when to offer
+ short scripts.

Copy on web:

leonelulloa.com/p/15

Scan

Win-back script (lost leads)

What AI can do

Reopen conversations politely with a 14-day win-back sequence.

Mini example

You get: 4 messages + proof + risk reducer + optional offer adjustment.

Do this

Win-back is timing + clarity, not pressure.

PROMPT PREVIEW

Write 4 win-back messages for {{offer}} in {{markets}} + one optional adjustment that preserves margin.

Copy on web:

leonelulloa.com/p/16

Scan

Delivery promise + expectations script

What AI can do

Reduce refunds and conflict with clear expectations (especially cross-border).

Mini example

You get: promise + responsibilities + delay message + update rhythm.

Do this

Underpromise, overdeliver.

PROMPT PREVIEW

Write delivery promise for {{offer}} in {{markets}} + client responsibilities + delay message + update schedule.

Copy on web:

leonelulloa.com/p/17

Scan

Onboarding flow (after payment)

What AI can do

Standardize onboarding so every customer has a smooth start.

Mini example

You get: welcome message + checklist + timeline + FAQ.

Do this

Good onboarding reduces refunds and increases referrals.

PROMPT PREVIEW

Design post-payment onboarding for {{offer}}: welcome, checklist, timeline, FAQ, DM + email versions.

Copy on web:

leonelulloa.com/p/18

Scan

Refund / returns policy (trust-focused)

What AI can do

Write a simple, fair policy that increases trust and reduces conflict.

Mini example

You get: policy + 5 edge cases + short DM summary.

Do this

A good policy sells. Confusion kills trust.

PROMPT PREVIEW

Create a refund/returns policy for {{offer}} in {{markets}} using {{constraints}} + 5 edge cases + short summary.

Copy on web:

leonelulloa.com/p/19

Scan

Customer success checklist (reduce churn)

What AI can do

Help customers get results with a success plan and proactive check-ins.

Mini example

You get: 7-day + 30-day checklist + prevention for common failures.

Do this

Retention is cheaper than acquisition.

PROMPT PREVIEW

Define success for {{offer}} and create 7-day/30-day checklists + 3 check-in messages + referral moment.

Copy on web:

leonelulloa.com/p/20

Scan

Mobile-first sales page (copy)

What AI can do

Write a complete, scannable sales page aligned to market objections.

Mini example

You get: hero + benefits + proof + FAQ + CTA.

Do this

Use one CTA. Remove distractions.

PROMPT PREVIEW

Write sales page for {{offer}} to {{target_customer}} in {{markets}}: hero, benefits, how-it-works, proof, FAQ(7), CTA.

Copy on web:

leonelulloa.com/p/21

Scan

Testimonials + case study extractor

What AI can do

Turn raw feedback into clean testimonials and mini case studies.

Mini example

You get: 5 testimonials + 1 mini case + permission message.

Do this

Collect proof weekly. Store it like an asset.

PROMPT PREVIEW

Given pasted feedback, extract 5 testimonials + 1 mini case study + permission request + where to use each.

Copy on web:

leonelulloa.com/p/22

Scan

Simple CRM pipeline (n8n-friendly)

What AI can do

Stop losing leads with a simple pipeline + reminders + weekly report.

Mini example

You get: stages, fields, reminders (24h/72h), report, n8n blueprint.

Do this

Start simple: a sheet + reminders.

PROMPT PREVIEW

Design CRM stages and fields for {{sales_channel}} leads in {{markets}} + reminders + weekly report + n8n blueprint.

Copy on web:

leonelulloa.com/p/23

Scan

Follow-up automation with approval (safe mode)

What AI can do

Automate follow-ups safely with approval so you never send the wrong message.

Mini example

You get: approval flow, drafts, stop rules, logging, reporting.

Do this

Never auto-send messages without approval.

PROMPT PREVIEW

Design follow-up automation: drafts Day1/3/7 + approve/reject/edit + stop rules + logging + weekly report.

Copy on web:

leonelulloa.com/p/24

Scan
